EPA Actions on Regional Haze SIPs.docx

Sara,

I think it could end up being useful to get it updated, but I don't have a specific need with a deadline. So, it's your call how this compares to other tasks for John.

Attached is a document with links to actions, by state. It's appendix B of the draft RH guidance, updated. This might be useful to John.

Phil

The compilation wasn't updated since the version Gail Fallon sent you. I'm happy to have our paralegal John Pickens update it. Lemme know if you have any timing considerations we can take into account as we ask him to work on it...no promises as far as a completion date, but we'll see what we can do.

Hi Sara –

Phil is wondering if the regional haze comment compilation was updated since the Utah regional haze rule....do you know of a more recent version?

Thanks!

Jaslyn

Jaslyn,

Gail said she was copying you, but I don't see that she actually did. Please let me know if there is a more up-to-date version.

Phil,

Attached is the latest version that I have. I'm copying Jaslyn in case she is aware of something more recent. I am currently serving in a management detail for the permitting and monitoring group for 1-2 years so best to direct future RH questions to her at least as a starting point. I'm glad to help with scavenger hunts as needed.

The attached document is somewhat untidy. The TOC was not updated after the last revision which was done during the UT final rule rush. The most recent WY RTCs and several other recent rule revisions appear to have been added at the end of the document. The last UT RTCs have not been added.

Jaslyn – This was a John Pickens effort if follow-up is needed.

Gail Fallon

Acting Air Permitting and Monitoring Unit Chief

Gail,

I can't find my copy of the very large document that Region 8 (as I recall) put together by cutting and pasting the comments/responses sections of FR notices for final actions on SIPs. Can you get someone to send me the most recent version? I realize it may not be up to date.
